A.G ARAJA Construction & Development Corp.	BAC / BFP-NHQ
<p>Query #1</p> <p>Page 179 of 180 Item B-Technical Documents 1-V11-3. Since we are bidding for the whole Seven Lots and the Design are only three (3) Typical Fire Stations Buildings. Do we need to have Seven (7) Design Team for the whole Seven Lots or One (1) Design Team only for the whole Seven (7) Lots will be sufficient. Your T.O.R says that "DESIGN TEAM FOR EACH LOT BEING BID".</p>	<p>Answer #1</p> <p>The same Design Team for all LOTS is acceptable. If a bidder is bidding for several lots, only one (1) Design Team is required. However, bidders should indicate in the List of Design Team that it is for the all lots it is bidding for.</p>

<p>Query #3</p> <p>This is in response to the bid requirements on page 179, item 4, under 3.2 Per Project Site/Fire Station, regarding Health and Safety Practitioner/Safety Officer (must have Certificate as Practitioner on Construction Occupational Safety Health (COSH) issued by Department of Labor and Employment, Occupational Safety and Health Center.</p> <p>We thought this requirement is too excessive, not necessary and it might cause another failure of bidding.</p> <p>Attached herewith are the rules on occupational Safety and Health Standards by the DOLE under 1030 Training of Personnel in Occupational Safety and Health. 1033 stating the required safety personnel as per project with regards to its safety hazards classification. I have also attached response memo made by DOLE to one consultation company, regarding the definition of a full time Safety Practitioner or Registered Bureau Safety Officer as define.</p> <p>We hope that the attached information from DOLE will change the requirements on the above mentioned item.</p>	<p>Answer #3</p> <p>The requirement for a Certificate as Practitioner on Construction Occupational Safety Health (COSH) issued by Department of Labor and Employment, Occupational Safety and Health Center is here by deleted. However, this requirement is now part of the Post Qualification which should be submitted by the declared Lowest/Single Calculated Bid.</p>

<p>Query #4</p> <p>Being a prospective bidder for the above mentioned project, we took into consideration and reviewed all the requested items to be designed and constructed in the said building. Sadly we regret to inform you that the allotted budget for the said project is insufficient to cover all the amenities requested therein due to the price escalation of Construction Materials and Labor Costs under our own Cost Analysis Program.</p> <p>May we then take this opportunity to request for a postponement of the bidding of the said project to pave the way for consideration that since this is a design and build program, may we allowed to submit our proposal that the plans and specifications to be made will be in conformity with the available budget but we will incorporate all the necessary facilities needed to have the said structure operational.</p>	<p>Answer #4</p> <p>Request denied.</p>
